Leadership competences of the future

The multiple intelligences

- the logical intelligence
- the language intelligence
- the emotional intelligence
- the social intelligence
- the physical intelligence
- the spatial intelligence
- the musical intelligence
- the naturalistic intelligence
- the existential intelligence

(Howard Gardner)
Leadership competences of the future

The whole brain – to be "wholebrained"

- the serial neural pathways
- the associative neural pathways
Leadership competences of the future

The whole brain – to be "wholebrained"

The whole brain
The whole human being
The whole society

- GIVING WHILE GROWING
The Fruittree-strategy - Helen Eriksen, 2002
Leadership tells its tale...
From the Fruittree-strategy by Helen Eriksen

It is about
opening up the senses.
So it becomes possible
to look out over the edge
of the mussel shell
that you thought was the world
and the whole universe.
In order to recognize
that you are far more than a mussel shell.
You are a unique, co-creational part of a whole ocean.
You are a universal cell
– you are quite simply connected
with all the other cells
in this ocean of consciousness.
Leadership competences of the future

The intuitive mind is a sacred gift and the rational mind is a faithful servant. We have created a society that honors the servant and has forgotten the gift.

Albert Einstein
Leadership competences of the future

TO NAVIGATE SUCCESSFULLY,
SUSTAINABLY,
AND INTUITIVELY INTELLIGENT:

The ability to make constructive
decisions without sufficient amounts of
information.
Leadership competences of the future

To overview COMPLEXITY and look into WHAT WANTS TO EMERGE

“The not-sensing of something does not prove its non-existence”.

Tenzin Gyatso (1935-), 14. Dalai Lama
Imagine if
